6th Step :

After Logging in you will land on the "Dashboard" where you will see four circles depicting 4 important parts of the registration process for the paid students (Paid users). To start you will 1st go to the middle circle namely "Students Entry". Here you will register your paid students who have paid you the registration fees of Rs.350/- (Three hundred & Fifty only).

The 1st circle is for changing the school details if required. The 3rd circle is for making online or offline payments to complete the registration process.

The 4th Circle is to review the complete registered student's details so that you are sure of its accuracy. This final list will be the base for us to assign the user ID & Passwords to your students and to proceed further in the competition. Please make sure you thoroughly check the details entered so that there are no issues at the later stages in the competition. By clicking the "Student Entry" you will go to the 7th Step in the registration Process.

7th Step :

In this step you start filling up the names of your paid students and the details of the teacher responsible for Teaching French. As soon as you fillup the details and submit, the details will be saved automatically. you will be able to move to the "Make Payment" Circle only when you have listed minimum of 50 students.

This particular process may take some time depending on the number of students who are paid users but trust us this is an one time effort which saves a lot of time for the rest of the

competition. One easy way to fill up the repeated entries like French Teacher's name, e - mail & mobile number is to use the autofill option that shows the full name,e-mail, mobile automatically once you type the 1st letter which will speed up the process of entries.
